

CAPPS HR/Payroll
 Required Maintenance
 Date of Report: 1/18/18

Service/Support Request (SR) Information

| SR # | Requesting Agency | Product | Impacts All Agencies | Module | Priority | Short Description | Long Description | Status; *=Updates |
|------|-------------------|------------------|----------------------|--------------------|----------|---|---|-------------------------------------|
| N/A | CAPPS | HR/Payroll | Y | ESS | Medium | Employee Self Service Provisioning Issues | There are a variety of issues related to provisioning employees with the correct roles at the time of hire and termination. | *Complete |
| 320 | CAPPS | CAPPS HR/Payroll | Y | TL Time and Labor | Medium | HCMPT error message | (Also reported in 9.1 SR2342) When REGHW is in needs approval status on the timesheet CAPPS is not allowing previously banked holiday comp time to be entered as taken. | *In Work |
| 408 | CAPPS | CAPPS HR/Payroll | Y | TL Time and Labor | High | Accruals incorrectly awarded on an 012 Direct Tsf | CAPPS is awarding accruals (Annual Leave, Sick Leave) to employees who are mid-month direct transfers (012 Reason Code) from agencies outside of CAPPS. Employees are only eligible to receive accruals once per month and in most cases that accrual should have been awarded by the employee's prior agency and not from within CAPPS. | *Rework |
| 950 | CAPPS | CAPPS HR/Payroll | Y | TL Time and Labor | High | COMP balance negative due to sys adjustmnt | Employee COMP balance negative due to system adjustment to his COMP leave balance. | Monitoring will continue for 1 year |
| 1026 | CAPPS | CAPPS HR/Payroll | Y | HR Human Resources | High | Entering new position with incorrect SetID | When entering a new position, the user should not be allowed to choose the Business Unit XXXTX Core SetID. It should give a fatal error and not allow to proceed further. The sub-page (Position & Reporting) needs to be made multi tenant and only bring up the agencies Business Unit associated with the user. | Rework |
| 1082 | CAPPS | HR/Payroll | N | HR | High | Modifications to the Hazardous Duty Functionality | Modifications are needed to the functionality in CAPPS for Haz Duty service: 1. Military LOA and LWOP must not adjust Haz Duty Service time comparable to log included in calculation of Prior state service; and, 2. Non-hazardous state service prior to 5/29/87 must not be included in Hazardous Duty service if the employee was not in a Haz Duty position that spans 5/29/87. Currently, the Grandfather Flag is automatically set to Y if the employee is in a Haz Duty position and prior non-haz duty state service is entered. The code that considers prior state service in conjunction with prior haz Duty service has been disconnected for now to prevent setting employees to Grandfathered when the statutory condition is not met; and, 3. Modify customization to use the prior haz duty table and allow inserts by agency users for all eligible haz duty service including non-hazardous State service provided the employee has prior haz duty service that spans 5/29/87; and , 4. Allow the insert and calculation of 1 day of prior Haz Duty Service comparable the online functionality and calculation of the State service Effdt for prior state service. | In Work |

Service/Support Request (SR) Information

| SR # | Requesting Agency | Product | Impacts All Agencies | Module | Priority | Short Description | Long Description | Status; *=Updates |
|------|-------------------|------------------|----------------------|-------------------|----------|--|--|----------------------|
| 1455 | DPS | CAPPS HR/Payroll | Y | TL Time and Labor | Medium | Incorrect email notifications sent | User received a second incorrect email notification of time changed, when time was not changed. Please see attachment. | In Work |
| 1503 | CAPPS | CAPPS HR/Payroll | Y | TL Time and Labor | Medium | Manager reporting to self can approve own time | If an employee reports to themselves and has a manager role, they are able to see themselves on the manager summary approval page and ultimately could approve their own time. We fixed this in FY15 with HCM5203 (ASP ticket 214), but it was apparently "unfixed" with HCM5255 (SR480). Note: the head of the agency always reports to themselves due to HR functionality. We may have others within our FY16 agencies that report to themselves too outside of the agency head so whatever the fix is, it can't be tied to a 'level' of employment. | *In Work |
| 3767 | CAPPS | CAPPS HR/Payroll | Y | Interfaces | High | Reporting payroll contribution amounts to ERS | Currently, after processing payrolls through SPRS a file is created by SPRS that includes retirement, insurance, flexible benefit and deferred compensation totals that is sent to ERS. The file called the 'CPA Contribution File' is a single file that includes any USPS or SPRS reporting agency that has processed a payroll on that day. The information reported to SPRS from CAPPS is allocated/distributed in such a way that when multiple pay periods are included in a single payment, the reporting of deduction amounts on the CPA Contribution file may be allocated across all pay periods. This can result in retirement deductions reported for periods with no pensionable earnings (e.g. Overtime) or splitting insurance contributions, flexible benefit deductions and savings plan deductions across multiple pay periods. ERS uses this Contribution file to make updates in their system and can result in erroneous credits in their pension and benefit systems. CAPPS will be modified to create a CPA Contribution File and to submit directly to ERS. CPA mainframe system will continue to report to ERS for all non-CAPPS agencies on the CPA Contribution File. | *In Work |
| 3889 | CAPPS | HR/Payroll | Y | HR | High | Clean up on State and Haz Duty Service Dates | SR3595 will address a customization to update the State Service Date and the Haz Duty Service Date when inserting prior state service or prior hazardous duty service after an employee has been terminated. After the fix for SR 3595 was migrated to Production, clean up is required for existing production data for the previously converted terminated employees with prior state service and/or prior HAZ duty service rows, as well as current employees in Production who have terminated since Go-live. | Hold |
| 4466 | CAPPS | CAPPS HR/Payroll | Y | PY Payroll | High | 2018 Tax Updates | Apply 2018 Tax Updates. These changes are necessary to comply with Federal tax laws. | In Work |

| SR # | Requesting Agency | Product | Impacts All Agencies | Module | Priority | Short Description | Long Description | Status; *=Updates |
|------|-------------------|-------------------|----------------------|------------------------|----------|--|--|--|
| 6081 | CAPPS | HR/Payroll | N | HR | High | Addl Pay for Haz Duty not inserted on Promotion | Haz Duty addl pay was not inserted when employees are promoted from a non-Haz Duty Position to Haz Duty position. The addl pay row is required for the payment to be automatically included when the employee is eligible for the payment. The next graduating class (promotions to Haz Duty positions) is in mid-December 2017. | *Rework Migrated to Production 12/14/17; however it was removed from Production 1/4/18. |
| 6095 | CAPPS | HR/Payroll | N | HR | High | Invalid updates to Haz Duty- Dual Employment issue | There is an issue related to Dual Employment and Haz Duty data for one of the employments. The condition that exists and needs to be fixed is when employees who are in Haz Duty positions at one company (e.g., 304, 405) and are hired as a SAD1 employee at Agency 401 (Military Dept) as an Active Duty employee. In this instance, the Haz Duty ONdicator is being set to N and invalid prior Haz Duty row is being inserted. | *In Development |
| 6192 | CAPPS | Enterprise Portal | Y | Not Applicable | Medium | Portal Changes due to Image/Fluid | Changes to the Portal are required related to the upgrade to Image 24 and the implementation of fluid pages. | *In Development |
| 6197 | CAPPS | HR/Payroll | N | PY Payroll | High | Dual Employ Issue-No ANLVP and Lump Sum Pmt | Dually employed/hired employees cannot be paid lump sum upon termination from non-SAD1 employment. ANLVP not auto-populated in this condition. | In Work |
| 6296 | CAPPS | CAPPS HR/Payroll | N | Mgr Self Service (MSS) | Medium | Modify Manager Payroll Notification Process | Currently the Manager Payroll Notification process utilized by agencies using full Manager Self Service functionality only runs for salaried monthly and twice monthly pay groups. Modification to the process is needed to allow it to be run for Hourly pay groups. | *In Development |
