

Business Objects 4.1 Upgrade

CAPPS Financials User Group Meeting

April 26, 2018

Business Objects 4.1 Upgrade

- Business Objects 4.1 is integrated into CAPPS Security.
 - Use your CAPPS User ID and Password to access.
- CAPPS security roles (assigned based on your current Business Objects access) drives your universe and adhoc/run-only access.
- Agency security is inferred from the user's CAPPS Primary Permission List security.
- New look and feel.
 - Dashboards will be by module. All agency reports will be visible.
 - HTML client replaces JAVA.
- Universes are being consolidated.
- Public reports are converted. The Business Objects team will assist with converting private reports by entering an ASP Support Request.
- Business Objects only impacts the CAPPS Central Agencies.
