

Centralized Accounting and Payroll/Personnel System

Benefits for Texas Fiscal 2012–21

Glenn Hegar, Texas Comptroller of Public Accounts

CAPPS – Improving State Government Business Functions

In 2007, the 80th Legislature passed HB 3106 that charged the Texas Comptroller's office with creating the Centralized Accounting and Payroll/ Personnel System or CAPPS to streamline and consolidate state government's major business functions including accounting, payroll, human resources (HR), procurement and inventory.

With CAPPS, entering information once automatically updates all functions. This reduces error and manual effort, increases efficiency and reduces cost. CAPPS reporting is flexible, accurate and highly automated, providing greater detail and better data for "big-picture" overviews required by agency leaders and legislators.

Why CAPPS?

Until recently, much of Texas state government relied on outdated financial and HR/payroll systems that could not easily communicate with one another. Updating or replacing these systems on an agency-by-agency basis would be expensive and many of the problems of the old systems would remain.

CAPPS implementation employs a statewide strategy, providing flexible systems for all agencies regardless of complexity and size.

CAPPS Implementation

By the fall of 2018, **77 state agencies** implemented CAPPS Financials, CAPPS HR/Payroll or both including the three Health and Human Services (HHS) agencies and the Texas Department of Transportation. In fiscal 2019, the Texas Department of Housing and Community Affairs (TDHCA) will implement CAPPS Financials as a Hub agency. **Fourteen more agencies** will adopt **CAPPS HR/Payroll** in fiscal 2019. **Nineteen more agencies** will adopt **CAPPS Financials** by the beginning of fiscal 2020.

Under the current deployment plan for fiscal 2020-21, by the beginning of 2022:

Number of State FTEs through CAPPS	115,594
Total State FTEs*	156,124
% of State FTEs through CAPPS	74%
Amount of State Spend through CAPPS	\$92,869,359,396
Total State Spend*	\$98,661,919,213
% of State Spend through CAPPS	94%

* Excludes institutions of higher education.

CAPPS Advantages

CAPPS offers a variety of advantages over existing systems, including:

Improved Transparency

CAPPS allows for easier reporting across agencies and provides policymakers with a statewide view of budget and spending.

Greater State Accountability

- CAPPS provides better control of state finances and employee data, ensuring more consistent recording and reporting.
- CAPPS ensures standardized payroll calculations for all state agencies as required by law.
- CAPPS set the precedence for standardized administrative functions and business processes, which are now the rule across agencies, resulting in more consistent recording and financial activities reporting.

Continuous Improvement of State Operations

- CAPPS has a common interface that provides for consistent contract reporting to the LBB across all agencies eliminating the need to build separate interfaces and results in greater efficiency and lower operating costs.
- CAPPS integrates the HR/Payroll and Financials systems by providing a central repository for employee data and historical information. This ensures consistent data across the system and allows for easier, more accurate report development.
- A new interface to Work in Texas (WIT) enables agencies to post jobs in CAPPS Recruit and those jobs are posted to WIT and vice versa. Applicants only have to fill out one application and agencies can accept WIT applications electronically.

Improved Cybersecurity

CAPPS security:

- Is comprehensive, with access control across all applications.
- Is highly customizable to respond to specific needs.
- Provides reportable and auditable security-specific data.

Legacy System Modernization

- The 83rd Legislature directed DIR to study “the composition of the state’s current technology landscape and determine how best to approach and make decisions about an aging infrastructure.” DIR’s resulting October 2014 report, *Legacy System Study: Assessment and Recommendations*, contains recommendations that reflect primary benefits of the CAPPS system:
 - Leveraging economies of scale
 - Facilitating standardization and collaboration
 - Establishing a statewide application framework
- CAPPS has allowed for the retirement of statewide (ISAS) and several internal agency legacy systems.

CAPPS Financials

Core Modules

Accounts Payable

Maintains transaction and vendor data while invoices are paid in a centralized system, including matching (verification) with purchase orders and receiving. Integrates with the current statewide vendor and accounting systems.

Asset Management

Provides a fully integrated asset information system, including integration with the Purchasing/eProcurement and Accounts Payable modules. Allows tracking of non-financial asset information like physical movement, location and custodians.

General Ledger/Commitment Control/Cash Receipts

Provides efficient and flexible processing of financial data with real-time controls to ensure data accurately meets agency reporting requirements. Allows for real-time check of transactions against appropriation, organization, project budgets and management of encumbrances and pre-encumbrances. Allows for comprehensive budget inquiry with drill-down-to-source-transactions capabilities.

Purchasing/eProcurement

Improves processing efficiency for the purchase of goods and services (including requisitions) with electronic approvals, contracts, purchase orders and receipts. Ensures statewide policy compliance through data validation and integration of documents within the procurement lifecycle.

Non-Core Modules

Billing/Accounts Receivable

Manages the billing process in a single, stand-alone system that integrates with other CAPPS modules including General Ledger, Grants, Project Costing and Customer Contracts. Enables timely information to customers through automated invoice, statement and dunning letter generation.

Customer Contracts

Manages revenue-generating contracts and creates billing actions. Revenue recognition may be managed by Customer Contracts or General Ledger, depending on agency need. Requires integration with Billing and Accounts Receivable for fixed-fee billings. Requires integration with Billing, Accounts Receivable and Project Costing for rate-based contract activities based on cost collection.

Grants

Efficiently and effectively tracks grant activities from a Grantee perspective (applying for grants) through proposal, receipt, milestone-tracking and disbursement. Requires integration with Customer Contracts, Billing/Accounts Receivable and Project Costing. **Note:** Does not facilitate sub-grantee level activities.

Inventory

Streamlines inventory processing from receipt to issue in a centralized and integrated system. Provides automated inventory replenishment triggers and integration with purchasing. Uses express and multi-step order fulfillment processing. Integrates Inventory and e-Procurement Requisition ensuring prior authorization before supplies are ordered and budget is checked to commit funds at the time of the request.

Project Costing

Manages cost collection process with a single end-to-end system; integrated with all core and non-core Financials modules for extensive cost collection and reporting needs.

CAPPS HR/Payroll

Core Modules

Core Human Resources (HR)

Increases effectiveness of agency workforce-related business processes by streamlining administrative tasks from onboarding to compensating employees. Delivers a central repository for employee data and historical records to ensure consistent data across all CAPPS modules.

Payroll

Provides agencies with a data-driven approach to defining and managing diverse payroll requirements for unique agency business policies, in full compliance with state of Texas statutes and policies. Standardizes payroll calculations for earnings, deductions and taxes to ensure all employees are paid timely and accurately.

Uses data stored in and created by the Core HR and Time and Labor modules to automatically build pay sheets and accurately calculate employee payments that comply with statutory and CPA payroll policy requirements.

Position Management

Manages appropriation budget allocations for approved agency positions. Facilitates tracking of filled versus vacant positions.

Time and Labor

Provides agencies with a time management application that efficiently automates time and attendance recordkeeping for the entire workforce.

Non-Core Modules

Recruit

Gives job applicants the ability to search and apply for job postings online. Applicants can attend to various aspects of the online recruiting process — completing screening questions; viewing interview schedules and accepting job offers.

Learn

Gives agencies the capability to manage course content and report on the status of course completion. Provides notifications when specific training is due. Allows agencies to track and report required training.

Performance Management

Provides agencies the ability to roll out performance management plans to their entire workforce and measure employee performance based on key indicators.

capps Financials Accomplishments

By the beginning of fiscal 2024, CAPPS Financials is projected to be 100% complete with all anticipated agencies deployed and handling \$98,661,919,213 in state spending. See Appendix C for an alphabetical list of agencies and their fiscal year deployment date.

Our deployment plan for the fiscal 2020-21 biennium will result in 94% of the state's spending processed through CAPPS Financials:

- 21 New Agencies (99 Agencies Total)
- \$92,869,359,396 in State Spending

By the beginning of fiscal 2020, 92% of the state's spending will be processed through CAPPS financials:

- 20 New Agencies (78 Agencies Total)
- \$90,901,248,760 in State Spending

From fiscal 2012 through the beginning of fiscal 2019, 91% of the state's spending was processed through CAPPS Financials:

- 58 Agencies
- \$89,756,415,258 in State Spending

HR/Payroll Accomplishments

By the end of fiscal 2023, CAPPS HR/Payroll is projected to be 100% complete with all anticipated agencies deployed and handling 156,124 FTEs. See Appendix C for an alphabetical list of agencies and their fiscal year deployment date.

Our deployment plan for the fiscal 2020-21 biennium will result in 74% of the state's FTEs being on CAPPS HR/Payroll:

- 16 New Agencies (93 Agencies Total)
- 115,594 Total FTEs

By the end of fiscal 2019, 67% of the state's FTEs will be on CAPPS HR/Payroll:

- 14 New Agencies (77 Agencies Total)
- 103,086 Total FTEs

From fiscal 2012 through the end of fiscal 2018, 62% of the state's FTEs are on CAPPS HR/Payroll:

- 63 Agencies
- 95,678 Total FTEs
